Getting Started

This short guide will help you get started with Simple Image Gallery Pro.

Step 1

Click on the gear icon at the top of the sidebar to adjust your global image gallery settings. E.g. the default thumbnail dimensions, popup engine, gallery layout etc.

Step 2

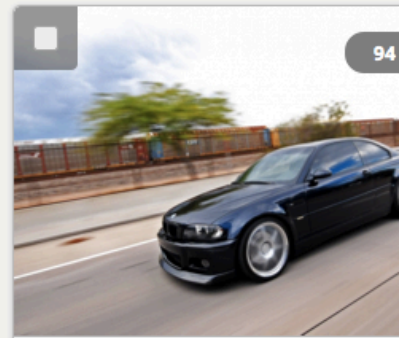

There are 3 ways to upload image galleries before attaching them to K2 items, Joomla! articles, Virtuemart/redShop products etc. You can batch upload image folders using FTP (to the root

7.3 or later The most popular version among Joomla! Stack for Mac users is 3.0 Stack for Mac.. If you're running Mac OS X 10.3.x you can download an earlier version of MAMP 1.. Joomla can be installed on Mac OS X Server 10.6 just fine, but I have the latest Mac server version, and its not installing.
